

Following the successful 2024 SBKA AGM hosted by Wimbledon, we were treated to an interesting presentation from Dr Jamie Ellis, entitled “The Birds and the Bees, well, just the Bees”.

Dr Ellis has sent through the link he referred to in his presentation, which includes a complete catalogue of the Honey Bee Research And Extension Lab published materials. The paper he referred to in his presentation is the one titled “Mating Biology”. Plus, there is plenty of other interesting info and research to be read.
